

## HOW TO USE:

- **Pick a word** on the outside flaps. Spell it out loud while opening and closing the fortune teller with each letter.
  - *Example: "HUMAN" - 5 moves: H-U-M-A-N)*
- **Pick a number** that appears inside. Open and close the fortune teller that many times.
- **Pick a flap** and lift it to reveal the message inside!

# HOW TO FOLD A FORTUNE TELLER

1. **Cut out the fortune teller** square with scissors.
2. **Fold diagonally both ways:** Fold the square in half diagonally from corner to corner. Unfold, then fold along the other diagonal. Unfold again. You should see an “X” crease.”
3. **Fold corners to center:** Take each corner of the square and fold it into the center point (where the diagonal lines cross).
4. **Flip it over:** Turn the paper over so the folded flaps are facing down.
5. **Fold corners to center again:** Just like before, fold each corner into the center point.
6. **Fold in half both ways:** Fold the square in half horizontally, then unfold. Fold it in half vertically, then unfold. This helps with the shaping.
7. **Open the pockets:** With the folded flaps facing out, gently slide your fingers under the four square pockets and push them together to form the fortune teller shape.
